

Suggestify

# Project Description

## Summary

The project would be an application where users will be able to find a movie or tv show that they would like to watch according to their mood and choice at that time.

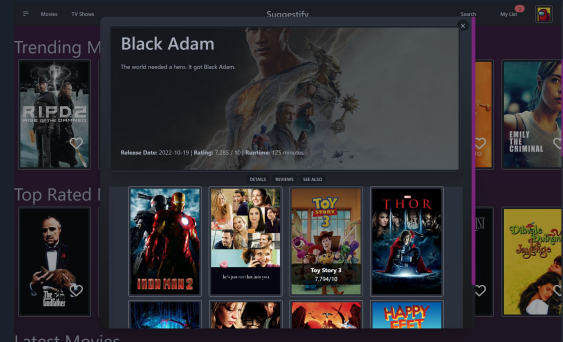

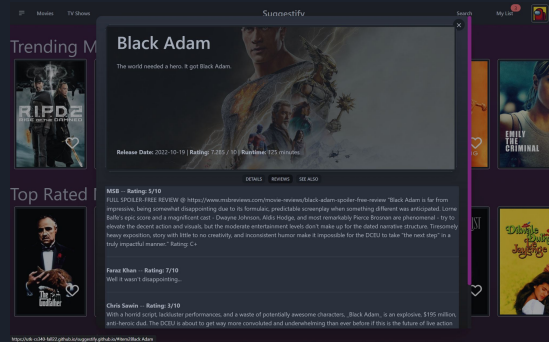

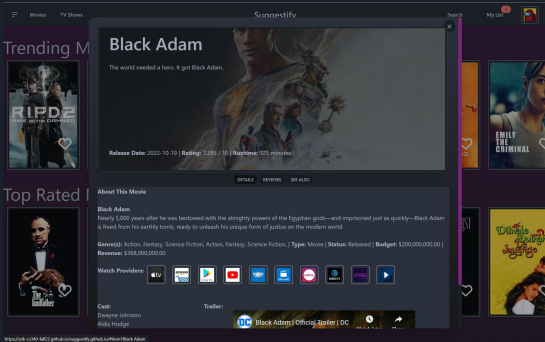

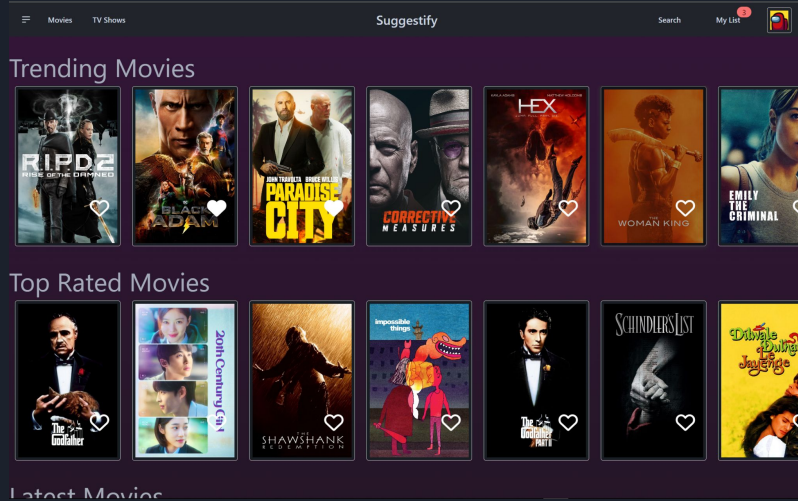

## Problem to solve

Oftentimes, people sit down by themselves or with a group of friends, and they end up spending too long trying to find the perfect movie or show to watch by sifting through Google and all of their streaming services. This project would help users quickly find something to watch based on the user's inputs. The application will be designed to be used by anyone.

About this movie

Description

As Lord Voldemort tightens his grip on both the Muggle and wizarding worlds, Hogwarts is no longer a safe haven. Harry suspects perils may even lie within the castle, but Dumbledore is more intent upon preparing him for the final battle fast approaching. Together they work to find the key to unlock Voldemort's defenses and to this end, Dumbledore recruits his old friend and colleague Horace Slughorn, whom he believes holds crucial information. Even as the decisive showdown looms, romance blossoms for Harry, Ron, Hermione and their classmates. Love is in the air, but danger lies ahead and Hogwarts may never be the same again.

Genre: Adventure, Fantasy | Status: Released | Budget: \$250,000,000.00 | Revenue: \$933,969,197.00
